

Hello! Thank you for purchasing Energetic Opener!

Fonts used: Futura

To install:

Please open FCPX folder. Open the Effects folder and copy Energetic Opener folder to:

Applications / Final Cut Pro (right click-Show Package Contents) / Contents / Plugins / Media Providers / Motion Effect.fcx / Contents / Resources / Templates / Effects

Open the Transitions folder and copy Energetic Opener folder to:

Applications / Final Cut Pro (right click-Show Package Contents) / Contents / Plugins / Media Providers / Motion Effect.fcx / Contents / Resources / Templates / Transitions

1 - Open Final Cut Pro X. Go to File-Import-Xml and in the XML folder choose *Energetic Opener 1080p.fcpxml*

2 - Find the media you need. Open placeholder Clip1 and drop your media in to the timeline. Make adjustments to video effects by selecting a placeholder and opening an video inspector menu. Transitions effect can be changed as well.

3 - To change text, select title layer and go to text inspector menu to change settings.

4 - Go to last placeholder LOGO, open it and place your logo inside

Tips:

- Change transitions duration and position by stretching and dragging it.
- You can copy video effect to a different clips
- Duplicate any layer by holding ALT

This opener requires **Final Cut Pro 10.4.3** and above

Enjoy!
