

Hello! Thank you for purchasing Glitch Logo!

Fonts used in preview: *The Led Display St, Led Calculator*

MOTION 5

- Please open the project file *Glitch Logo 1080p* or *4K*.
- To insert a logo open the project folder and drag your logo to LOGO layer at the bottom. Go to **Published parameters** menu to change logo position, scale and effects.
 - Change small logo text in Published parameters menu.
 - Change logo animation to text by selecting TEXT checkbox in Published parameters menu.
 - Change such effects parameters as Bad TV, Prism, Underwater in Published parameters menu.
 - Enable and disable “Lines” and “Starfield” using Published parameters menu.
 - All effects can be also modified and repositioned using a timeline.

FCPX

- For use in Final Cut Pro X, please go to FCPX folder and copy **Glitch Logo** folder to ***Applications/ Final Cut (right click-Show package Contents) / Contents / Plugins / MediaProviders / MotionEffect.fxp /Contents / Resources / Templates / Generators***
- Open Final Cut Pro X. Go to **Titles and Generators sidebar - Generator - Glitch Logo** and drag *Glitch Logo 1080p* or *4K* in to the timeline. Select the generator on timeline

and go to Generator Inspector menu. Here you can insert logo, change parameters and effects.

- To insert logo, select generator on the timeline, go to Generator Inspector menu, select LOGO placeholder and choose your logo from the browser, then click Apply Clip. Change logo settings in Generator Inspector menu.

- Change Logo animation to Text animation by selecting “TEXT” checkbox.

- Go to Published parameters menu to change all effects, background, text etc.

- You can change a template duration just by stretching it.

Music used in preview: <https://audiojungle.net/item/short-glitch-logo/24647197>

- This project requires Motion **5.3.2** or Final Cut Pro **10.4.3** and above

Enjoy!
