
Thank you for purchasing New Mobile App Presentation - iOS & Android!

This template only for Final Cut Pro X 10.3 and above.

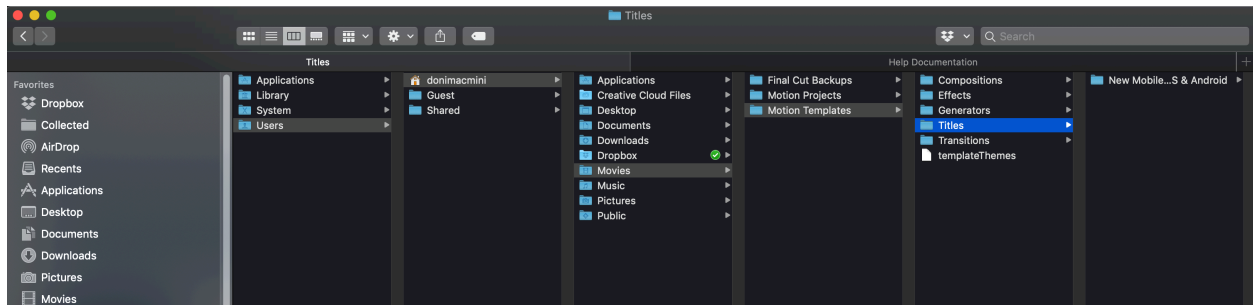

You can download the fonts used in this project on this links:

Harabara Mais : <http://www.dafont.com/harabara.font>

Museo 300, 500, 700 : <http://www.fontsquirrel.com/fonts/museo>

To use New Mobile App Presentation in Final Cut Pro X copy “New Mobile App Presentation - iOS & Android” folder to Home > Movies > Motion Templates > Titles.

To use Transitions in Final Cut Pro X copy IG_Transitions folder to Home > Movies > Motion Templates > Transitions.

In case you cannot see the folders like in the tutorial video, do it like this (link). Problem is that without Apple Motion not installed, these folders are not generated. So you need to do it manually:

<https://discussions.apple.com/thread/6745804?start=0&tstart=0>

Now you can edit directly in FCPX such as Colors, Logo, Text, Opacity, Scale Position, etc.
