

# QUICK GUIDE

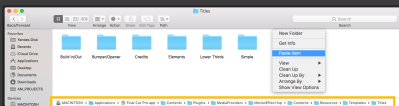

Thank you for buying this file made exclusively for videohive.net

## How to install the template (FCPX)

This template can be used inside Final Cut X with or without Apple Motion installed. Depending if you have or not Apple Motion installed on your Mac, the installation process is different. If you have Motion and Final Cut X please use the first method. If you have only Final Cut X but no Motion, please use the second method. If you have only Motion but no Final Cut X you do not need to install the templates. After installation, restart Final Cut X if it is running.

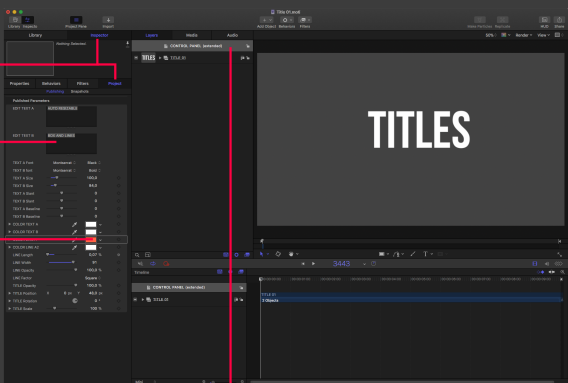

USE this method if you have Motion installed on your Mac  
Copy this project folder to: ~/Movies/Motion Templates/Titles

USE this method if you DO NOT have Motion installed on your Mac.  
Copy this project folder to: ~/Applications/Final Cut Pro/Contents/Plugins/MediaProviders/MotionEffect.fxproj/Contents/Resources/Templates/Titles

### IMPORTANT:

Before you start to work with the project is required to download and install necessary fonts!  
It's important - this project uses several paid fonts, so we do not append them to the project, you should download and install all the fonts yourself.

### FONTS:

Open file named "Fonts.txt" in project folder.
