

Logo Identity Final Cut Pro X

Note:

Required Motion 5.3.2 or Final Cut Pro X 10.3.3

~ HOW TO INSTALL THE TEMPLATE ~

This template can be used inside Final Cut X with or without Apple Motion installed.

USE this method if you have Motion installed on your Mac

Copy Logo Identity & Logo Identity Square folders to:

~/Movies/Motion Templates/Generators

USE this method if you DO NOT have Motion installed on your Mac

Copy Logo Identity & Logo Identity Square folders to:

/Applications/Final Cut Pro/Contents/PlugIns/

MediaProviders/MotionEffect.fxp/Contents/Resources/Templates/
Generators

USE this method if you have BOTH (FcpX & Motion) installed:

Copy Logo Identity & Logo Identity Square folders to:

/Movies/Motion Templates/Generators/

Font used for Titles – Montserrat:

2) Editing in Motion 5.3.2

Open desired Logo project in motion, then click on "Project" layer in timeline, go to "Inspector" > "Project" > Publishing and edit all logo pieces, colours and texts for tagline. For advanced editing you will need to expand every 'Group' in timeline and edit thru Inspector.

2) Editing in Final Cut Pro X 10.3.3

Open Final Cut Pro X, go to "Title & Generators sidebar" and usually under "Generators" or "Custom" group you will find "Logo Identity Final Cut Pro X or Logo Identity Final Cut Pro X Square". Drag it on timeline, click on it, and under "Generator Inspector" edit all colours and texts.

Note:

You can publish additional parameters under Motion 5.3.2 and save the template, then reload it again in Final Cut Pro X.
