~ HOW TO INSTALL THE TEMPLATE ~

This template can be used inside Final Cut X with or without Apple Motion installed.

USE this method if you have Motion installed on your Mac  
Copy 'Minimal Logo FCPX' folder to:

~/Movies/Motion Templates/Generators

USE this method if you DO NOT have Motion installed on your Mac  
Copy 'Minimal Logo FCPX' folder to:

/Applications/Final Cut Pro/Contents/PlugIns/  
MediaProviders/MotionEffect.fxp/Contents/Resources/Templates/  
Generators

Basic editing if you are using Apple Motion:

When you open the project go to "Media" bin, click on the "logo" layer, go to "Inspector" and select "Replace Media File". Once you change the logo, adjust the size by Scaling down or up your logo.

Now in timeline click on "Logo and Tagline" – expand it, and replace tagline.

If you want to use the text turn off "logo" and in the same group type some text.

If you are using Final Cut Pro X:

Open the new project, go to "Titles & Generators Bar" and find under "Generators >..." "Clean Logo Reveal For Motion"

Drag'n drop it in timeline and under "Generator Inspector" edit the logo, tagline, background and other parameters.
