

DYNAMIC TITLES

1. PLEASE INSTALL THE FONTS FIRST

Before installing and editing the templates in Final Cut X or Apple Motion, please install the required fonts.

For how to install Fonts, please see [Apple Documentation](#)

Download and install the following fonts:

Follow the first link for each font and download. If the link / website is not available, please use the second link.

BEBAS NEUE:

<https://www.fontsquirrel.com/fonts/bebas-neue>

LOBSTER (1.3):

<https://www.dafontfree.net/freefonts-lobster-1-3-f92151.htm>

2. HOW TO INSTALL THE TEMPLATE (FCPX)

This template can be used inside Final Cut X with or without Apple Motion installed. Depending if you have or not Apple Motion installed on your Mac, the installation process is different. If you have Motion and Final Cut X please use the first method. If you have only Final Cut X but no Motion, please use the second method. If you have only Motion but no Final Cut X you do not need to install the templates. After installation, restart Final Cut X if it is running.

USE this method if you have Motion installed on your Mac

Copy << Typography Scenes >> folder to: ~/Movies/Motion Templates/Titles

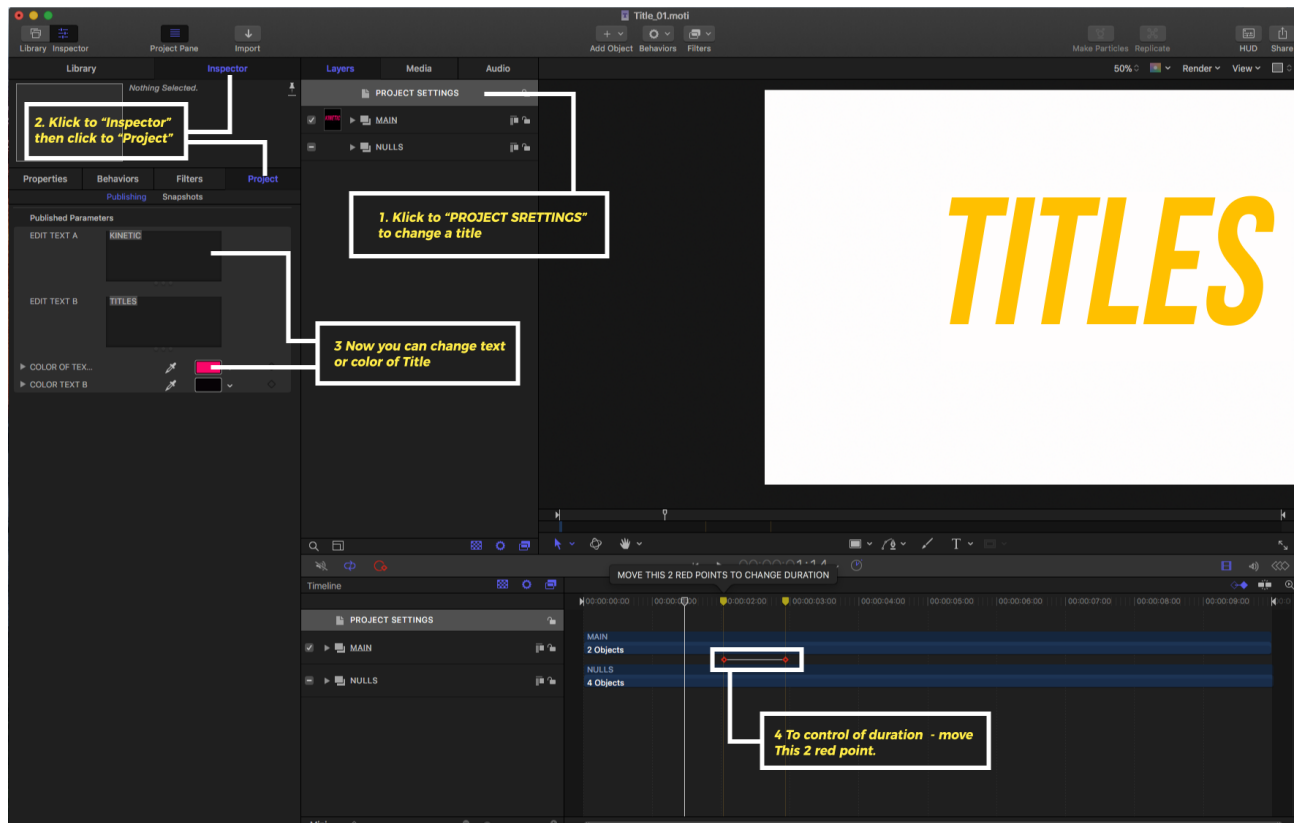

USE this method if you DO NOT have Motion installed on your Mac

Copy << Typography Scenes >> folder to:~/Applications/Final Cut

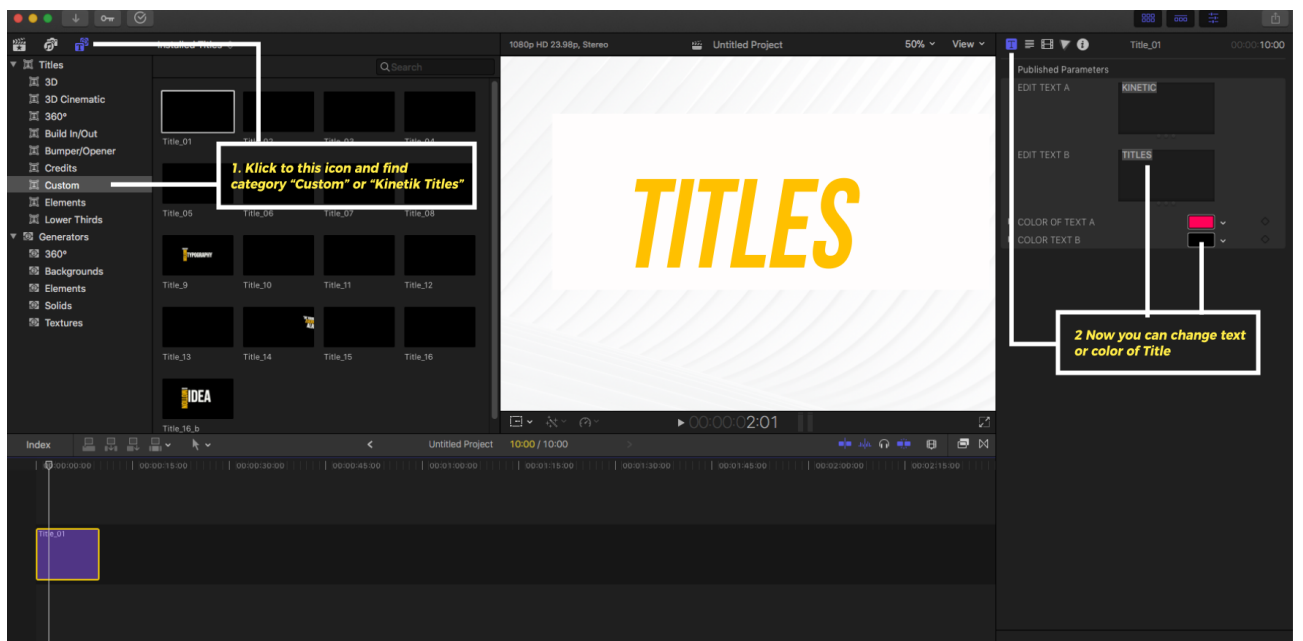

Pro/Contents/PlugIns/MediaProviders/MotionEffect.fxp/Contents/Resources/Templates/Titles
